Revision of [REDACTED] Questionnaires for Romania and Bulgaria

REF : St/I Office Notice No. 82, 4 September 1956

1. Reference is made to Questionnaire - Romania, 4th Revision, December, 1955. Item 30, Telecommunications, should be retained with changes as indicated below:

- a. In the fourth paragraph add "... Bucharest in the direction of Floesti. The Second Five-Year Plan calls for an expanded long-distance network, which is to be provided by radio relay facilities and underground telephone cable. The radio relay facilities are of particular interest to us. They will probably ...."
- b. Insert the following questions, under questions and requirements:
  - 1) Is there any evidence of new radio relay lines being installed? If so, where, and in what direction are the lines being installed?
  - 2) The Second Five-Year Plan calls for two new radio-broadcasting stations. Is there any evidence suggesting the installation of these stations?

2. Reference is made to Questionnaire - Bulgaria, 4th Revision, December, 1955. It is requested that Item 30, Telecommunications, be retained without change.
